

Technical Information

HIGH PERFORMANCE Marine Compound

Product information

AUTOSOL® HP Marine Compound is designed to remove heavy swirl and sandings marks, oxidation, stubborn staining from weather influences, water pollution, or sun damage, on fiberglass gelcoat or painted surfaces. AUTOSOL® HP Marine Compound is a fast cutting compound designed to restore the surface and leaves a superior high gloss. Suitable for new /used paint or gelcoat surfaces. Use for removing sanding scratches P1200-P2000. Silicone free, no filler added.

- Leaves no scratches/swirl marks
- Dust-free
- Fast-working
- Silicone-free

Following the compounding stage we recommend the use of AUTOSOL ® Marine Super Gloss Polish to achieve a high gloss finish.

Application

Use a new twisted lambs wool pad or hard compounding foam pad. Apply a small amount of product to the surface. Polish in sections. Start rotary polisher at a speed of 1200-1400 rpm. Using firm pressure work the area and after a short time increase speed and apply less pressure to obtain a higher gloss finish. In extreme conditions a second application may be required.

Remove polish residue with a soft microfiber cloth.

Technical Data

Form: fluid
Colour: white
Odour: characteristic

Health and Safety

Safety Data Sheet is available separately.

Additional Information

Art.-No.: 11 053000
